About Us

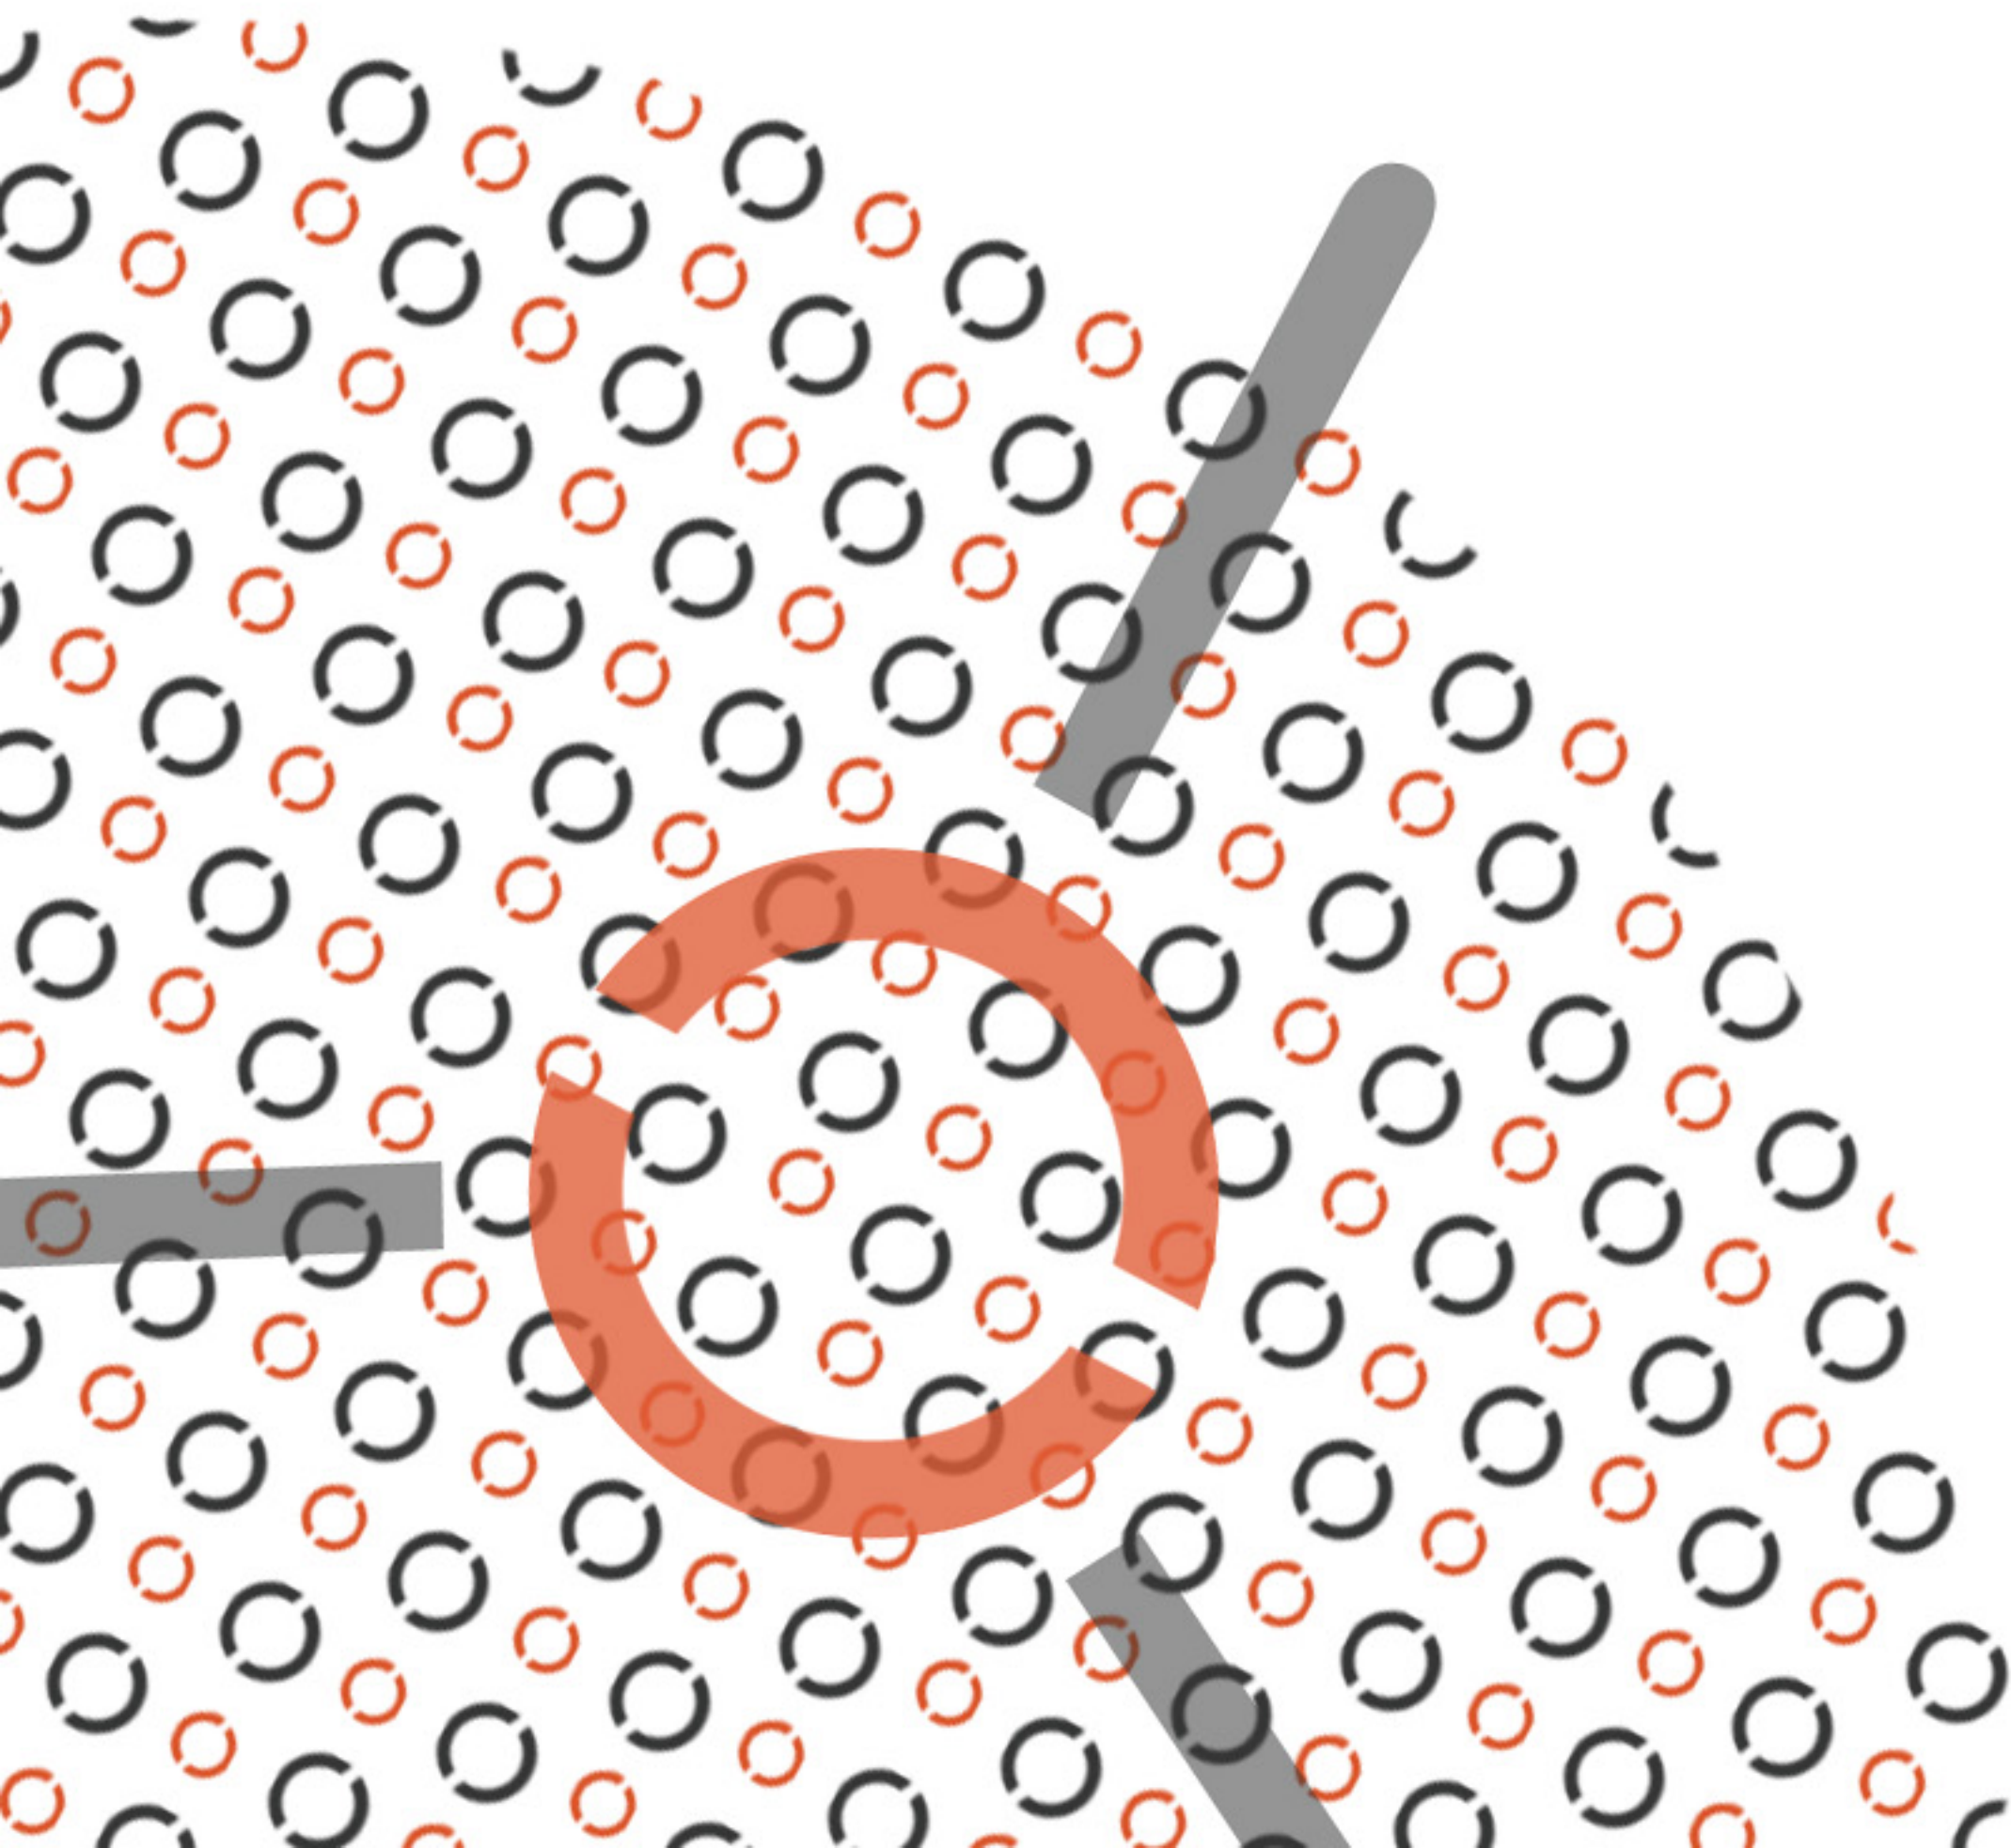

Welcome to the Global School of Ministry, also known as GSOM. Here we are committed to providing an award-winning learning platform that equips both men and women with the revealed Word of God to discover the mind of God for their life. The Institute not only prepares students to share and bear witness of Jesus Christ to the Church and the World but to demonstrate His power in every sphere of influence.

Our teachers are subject specialists creating a support system for students to develop their personal learning goals which will activate their learning and ability to achieve success.

Curriculum and Courses

The curriculum for the Global School of Ministry is built around three main focus points:

1. Discover the mind of God for your life
2. The maturity of those called for ministry
3. The maturity of those called to influence every sphere of society.

These learning stages form the foundation on which each Bible Course is built and developed. GSOM has through an in-depth study of the scriptures, developed a detailed course on the history and fundamentals of Christianity with ministry and leadership development as a focus point. In combination, the program is ideal for anyone who wants to expand both their revelational knowledge of the Bible, effectiveness in ministry and influence in their daily spheres of life.

The Bible School courses as well as the Ministry Focus courses are set out to develop a set of skills critically important for each believer to have a solid foundation of the written and revealed Word of God in order to become mature and equipped for ministry, leadership and both the business and professional world.

The courses are not accredited with the Department of Higher Education , but each student will receive a certificate of completion as part of their own personal development.
